

Catering Quote Comparison Sheet

Lay two or three quotes side by side, line for line, on the same all-in basis.

Caterers often quote differently — one folds in service charge, another adds it later. Put every quote on the SAME lines below, then compare the all-in per-guest number.

Compare	Caterer A	Caterer B	Caterer C
Menu / service style			
Price per guest (food)			
Service charge %			
Gratuuity (if separate)			
Staffing included?			
Rentals included?			
Delivery / setup			
Minimum			
Deposit			
Final headcount deadline			
ALL-IN per guest			
Tasting offered?			

How to read it

The lowest food price is rarely the lowest all-in price. Add the service charge, staffing, and rentals before you compare. Ask each caterer to confirm the all-in per-guest figure in writing.

Tablefare is a free matching service, not a caterer, restaurant, or event planner. Ranges shown are typical examples, not quotes. Always confirm the price per guest, your date, and all terms in writing before you pay a deposit or sign.
